Multiple opportunities are available:

- 1) **Teen Teacher's Aides** – 19 or 34 service hour commitment with additional hours available - Giving your time and talents as a TA, you can be in a classroom helping a teacher and parents with setting up materials, monitoring activities, lending students a hand, coaching them through problem solving, encouraging interaction, and cleaning up. Mandatory training includes leadership skills, classroom procedures, and accommodations for the sensitivities and common learning difficulties and disabilities of intellectually gifted children. For winter term, the application steps including references must be completed by 12/28/26.
- 2) **Robotics Team Mentors** – Did you participate in FIRST LEGO League at the Challenge level and have aged up? Or, did you participate in VEX Robotics in elementary or middle school? Would you now like to mentor younger children in robotics?
- 3) **Service-Learning Project** – hours depend upon individual – Through completion of a SLP, you can give of your developing talents and skills to help outside of our classrooms in our operations. Our volunteers do a lot behind the scenes in order to put on classes. We invite you to research us to identify a need in our organization that you believe is a good fit for you to address.

We offer enrichment classes fall, winter, and spring. Each term is six Saturdays long. Classes are fun, hands-on, cover a wide variety of subjects, and allow children to stretch their abilities in new areas. Just as important as the curricula, gifted children have a place to come together with more of their gifted peers. They may soar to their own heights, will meet others who share their intensity, ambitions, interests, and abilities, and can interact authentically. Many friendships have been made here. We try to keep costs low and offer tuition scholarships as we serve children from across Greater Cincinnati from all socioeconomic backgrounds. Being a volunteer-run organization makes this possible.
