

Teaching Opportunities

The Super Saturday Program

Serving Intellectually Gifted Children of Greater Cincinnati Since 1981

3440 Central Parkway, Cincinnati, OH 45225

supersaturday.org/teach-here

We are seeking engineers and artists; makers, tinkerers, and deep thinkers; theoreticians, working professionals, and hobbyists.

Your idea for a class does not need to be limited to the list below. We are looking for any class idea that is fun, hands-on and satisfies gifted children's special needs for deeper and more creative exploration, accelerated pacing, and interaction with gifted peers.

Class topics we would like to pursue include **architecture, art, ASL, automobiles, coding projects**, collaborative music (**jazz band, rock band**), **dinosaurs, engineering, entrepreneurship** (especially merchandising), **food science, improv, nutrition, responsible pet ownership**, set-collection games (**mahjong, gin rummy, canasta**), **sports math** (strategy, stats, fantasy leagues), **spycraft, STEM kit sampling and reviewing**, strategy card games (**blackjack, poker, Pokémon**), trick-taking games (**bridge, euchre, hearts**), and **zoology** (entomology, herpetology, marine biology...). We would also like to expand upon our popular robotics classes and competition teams by offering complementary or more advanced robotics, coding, design, and mathematics curriculum.

What learning experience would have delighted your own child (or you as a child) if only it were offered?

Classes meet for two hours each Saturday and run for six Saturdays. TSSP is a volunteer-run 501c3, which handles marketing, registration, payment, facilities, and more; teachers are paid for each class they offer.

To begin teaching fall term, which runs from 10/10/26 to 11/15/26, applications must be submitted by 08/03/26. To begin teaching winter term – 01/16/27 to 02/20/27 – applications must be submitted by 11/01/26. For spring term – 03/13/27 to 04/17/27 – apply by 01/03/27.
